

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically start to both dump and release whenever the bumper release contacts the side of a dumpster. When dumping is done, the hopper can return to original upright and locked position. This particular piece of machinery is even obtainable along with a cable which allows operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided to lock the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
