

Spreader Bar for Forklift

Spreader Bars for Forklift - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader business all over the globe. They have been a devoted producer of spreaders for numerous applications like the handling of containers, swop bodies and trailers.

Engineering is done in house by utilizing the newest CAD systems and FEM tools. The ELME company presently has over 125 personnel. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-over the world.

The product series of ELME include lots of spreaders for a variety of trailer and container handling operations. Several of their inventory comprise: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a huge range of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by means of making use of top quality elements to guarantee reliability and top standards while offering reasonable prices. Major features of ELME consist of design simplicity, market response and ground-breaking modular spreader concept.
