

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly built on a 100 year tradition of service and quality. They specialize in various modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage within the international operations. The company values all their customers and would like to guarantee their success while anticipating their diverse needs. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in just hiring future focused workers. These top-caliber individuals can quickly get used to to changing surroundings and freely exhibit the level of performance and commitment considered necessary to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their staff different opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems utilized for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their worldwide engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum progress at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 nations.

They have their supplier network which is particularly situated to be able to support the growth of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean methods.
